Sec. 38. Minnesota Statutes 2016, section 256B.0644, is amended to read:

256B.0644 REIMBURSEMENT UNDER OTHER STATE HEALTH CARE PROGRAMS.

(a) A vendor of medical care, as defined in section 256B.02, subdivision 7, and a health maintenance organization, as defined in chapter 62D, must participate as a provider or contractor in the medical assistance program and MinnesotaCare as a condition of participating as a provider in health insurance plans and programs or contractor for state employees established under section 43A.18, the public employees insurance program under section 43A.316, for health insurance plans offered to local statutory or home rule charter city, county, and school district employees, the workers' compensation system under section 176.135, and insurance plans provided through the Minnesota Comprehensive Health Association under sections 62E.01 to 62E.19. The limitations on insurance plans offered to local government employees shall not be applicable in geographic areas where provider participation is limited by managed care contracts with the Department of Human Services. This section does not apply to dental service providers providing dental services outside the seven-county metropolitan area.

(b) For providers other than health maintenance organizations, participation in the medical assistance program means that:

(1) the provider accepts new medical assistance and MinnesotaCare patients;

(2) for providers other than dental service providers, at least 20 percent of the provider's patients are covered by medical assistance and MinnesotaCare as their primary source of coverage; or

(3) for dental service providers providing dental services in the seven-county metropolitan area, at least ten percent of the provider's patients are covered by medical assistance and MinnesotaCare as their primary source of coverage, or the provider accepts new medical assistance and MinnesotaCare patients who are children with special health care needs. For purposes of this section, "children with special health care needs" means children up to age 18 who: (i) require health and related services beyond that required by children generally;

and (ii) have or are at risk for a chronic physical, developmental, behavioral, or emotional condition, including: bleeding and coagulation disorders; immunodeficiency disorders; cancer; endocrinopathy; developmental disabilities; epilepsy, cerebral palsy, and other neurological diseases; visual impairment or deafness; Down syndrome and other genetic disorders; autism; fetal alcohol syndrome; and other conditions designated by the commissioner after consultation with representatives of pediatric dental providers and consumers.

(c) Patients seen on a volunteer basis by the provider at a location other than the provider's usual place of practice may be considered in meeting the participation requirement in this section. The commissioner shall establish participation requirements for health maintenance organizations. The commissioner shall provide lists of participating medical assistance providers on a quarterly basis to the commissioner of management and budget, the commissioner of labor and industry, and the commissioner of commerce. Each of the commissioners shall develop and implement procedures to exclude as participating providers in the program or programs under their jurisdiction those providers who do not participate in the medical assistance program. The commissioner of management and budget shall implement this section through contracts with participating health and dental carriers.

(d) A volunteer dentist who has signed a volunteer agreement under section 256B.0625, subdivision 9a, shall not be considered to be participating in medical assistance or MinnesotaCare for the purpose of this section.

EFFECTIVE DATE. This section is effective upon receipt of any necessary federal waiver or approval. The commissioner of human services shall notify the revisor of statutes if a federal waiver or approval is sought and, if sought, when a federal waiver or approval is obtained.

Sec. 45. Minnesota Statutes 2016, section 256B.196, subdivision 2, is amended to read:

Subd. 2. **Commissioner's duties.** (a) For the purposes of this subdivision and subdivision 3, the commissioner shall determine the fee-for-service outpatient hospital services upper payment limit for nonstate government hospitals. The commissioner shall then determine the amount of a supplemental payment to Hennepin County Medical Center and Regions Hospital for these services that would increase medical assistance spending in this category to the aggregate upper payment limit for all nonstate government hospitals in Minnesota. In making this determination, the commissioner shall allot the available increases between Hennepin County Medical Center and Regions Hospital based on the ratio of medical assistance fee-for-service outpatient hospital payments to the two facilities. The commissioner shall adjust this allotment as necessary based on federal approvals, the amount of intergovernmental transfers received from Hennepin and Ramsey Counties, and other factors, in order to maximize the additional total payments. The commissioner shall inform Hennepin County and Ramsey County of the periodic intergovernmental transfers necessary to match federal Medicaid payments available under this subdivision in order to make supplementary medical assistance payments to Hennepin County Medical Center and Regions Hospital equal to an amount that when combined with existing medical assistance payments

to nonstate governmental hospitals would increase total payments to hospitals in this category for outpatient services to the aggregate upper payment limit for all hospitals in this category in Minnesota. Upon receipt of these periodic transfers, the commissioner shall make supplementary payments to Hennepin County Medical Center and Regions Hospital.

(b) For the purposes of this subdivision and subdivision 3, the commissioner shall determine an upper payment limit for physicians and other billing professionals affiliated with Hennepin County Medical Center and with Regions Hospital. The upper payment limit shall be based on the average commercial rate or be determined using another method acceptable to the Centers for Medicare and Medicaid Services. The commissioner shall inform Hennepin County and Ramsey County of the periodic intergovernmental transfers necessary to match the federal Medicaid payments available under this subdivision in order to make supplementary payments to physicians and other billing professionals affiliated with Hennepin County Medical Center and to make supplementary payments to physicians and other billing professionals affiliated with Regions Hospital through HealthPartners Medical Group equal to the difference between the established medical assistance payment for physician and other billing professional services and the upper payment limit. Upon receipt of these periodic transfers, the commissioner shall make supplementary payments to physicians and other billing professionals affiliated with Hennepin County Medical Center and shall make supplementary payments to physicians and other billing professionals affiliated with Regions Hospital through HealthPartners Medical Group.

(c) Beginning January 1, 2010, Hennepin County and Ramsey County may make monthly voluntary intergovernmental transfers to the commissioner in amounts not to exceed $12,000,000 per year from Hennepin County and $6,000,000 per year from Ramsey County. The commissioner shall increase the medical assistance capitation payments to any licensed health plan under contract with the medical assistance program that agrees to make enhanced payments to Hennepin County Medical Center or Regions Hospital. The increase shall be in an amount equal to the annual value of the monthly transfers plus federal financial participation, with each health plan receiving its pro rata share of the increase based on the pro rata share of medical assistance admissions to Hennepin County Medical Center and Regions Hospital by those plans. <u>For the purposes of this paragraph, "the base amount" means the total annual value of increased medical assistance capitation payments, including the voluntary intergovernmental transfers, under this paragraph in calendar year 2017. For managed care contracts beginning on or after January 1, 2018, the commissioner shall reduce the total annual value of increased medical assistance capitation payments under this paragraph by an amount equal to ten percent of the base amount, and by an additional ten percent of the base amount for each subsequent contract year until December 31, 2025.</u> Upon the request of the commissioner, health plans shall submit individual-level cost data for verification purposes. The commissioner may ratably reduce these payments on a pro rata basis in order to satisfy federal requirements for actuarial soundness. If payments are reduced, transfers shall be reduced accordingly. Any licensed health plan that receives increased medical assistance capitation payments under the intergovernmental transfer described in this paragraph shall increase its medical assistance payments to Hennepin

County Medical Center and Regions Hospital by the same amount as the increased payments received in the capitation payment described in this paragraph. This paragraph expires January 1, 2026.

(d) For the purposes of this subdivision and subdivision 3, the commissioner shall determine an upper payment limit for ambulance services affiliated with Hennepin County Medical Center and the city of St. Paul, and ambulance services owned and operated by another governmental entity that chooses to participate by requesting the commissioner to determine an upper payment limit. The upper payment limit shall be based on the average commercial rate or be determined using another method acceptable to the Centers for Medicare and Medicaid Services. The commissioner shall inform Hennepin County ~~and~~, the city of St. Paul, and other participating governmental entities of the periodic intergovernmental transfers necessary to match the federal Medicaid payments available under this subdivision in order to make supplementary payments to Hennepin County Medical Center ~~and~~, the city of St. Paul, and other participating governmental entities equal to the difference between the established medical assistance payment for ambulance services and the upper payment limit. Upon receipt of these periodic transfers, the commissioner shall make supplementary payments to Hennepin County Medical Center ~~and~~, the city of St. Paul~~.~~, and other participating governmental entities. A tribal government that owns and operates an ambulance service is not eligible to participate under this subdivision.

(e) For the purposes of this subdivision and subdivision 3, the commissioner shall determine an upper payment limit for physicians, dentists, and other billing professionals affiliated with the University of Minnesota and University of Minnesota Physicians. The upper payment limit shall be based on the average commercial rate or be determined using another method acceptable to the Centers for Medicare and Medicaid Services. The commissioner shall inform the University of Minnesota Medical School and University of Minnesota School of Dentistry of the periodic intergovernmental transfers necessary to match the federal Medicaid payments available under this subdivision in order to make supplementary payments to physicians, dentists, and other billing professionals affiliated with the University of Minnesota and the University of Minnesota Physicians equal to the difference between the established medical assistance payment for physician, dentist, and other billing professional services and the upper payment limit. Upon receipt of these periodic transfers, the commissioner shall make supplementary payments to physicians, dentists, and other billing professionals affiliated with the University of Minnesota and the University of Minnesota Physicians.

(f) The commissioner shall inform the transferring governmental entities on an ongoing basis of the need for any changes needed in the intergovernmental transfers in order to continue the payments under paragraphs (a) to ~~(d)~~ (e), at their maximum level, including increases in upper payment limits, changes in the federal Medicaid match, and other factors.

~~(f)~~ (g) The payments in paragraphs (a) to ~~(d)~~ (e) shall be implemented independently of each other, subject to federal approval and to the receipt of transfers under subdivision 3.

(h) All of the data and funding transactions related to the payments in paragraphs (a) to (e) shall be between the commissioner and the governmental entities.

(i) For purposes of this subdivision, billing professionals are limited to physicians, nurse practitioners, nurse midwives, clinical nurse specialists, physician assistants, anesthesiologists, certified registered nurse anesthetists, dentists, dental hygienists, and dental therapists.

EFFECTIVE DATE.

Paragraph (d) is effective July 1, 2017, or upon federal approval, whichever is later. The commissioner of human services shall notify the revisor of statutes when federal approval is received.
